

BANAT'S UNIVERSITY OF AGRICULTURAL SCIENCES
AND VETERINARY MEDICINE
"KING MICHAEL I OF ROMANIA" FROM TIMI OARA

THE FACULTY OF AGRICULTURE

invites you to participate on 26 October 2018 at

THE INTERNATIONAL STUDENT PROJECT CONTEST IN THE FIELD OF ENGINEERING SCIENCES – *First Edition*

The contest offers students and master students the opportunity to present their projects and perspectives in terms of technology transfer and innovation in the fields of Engineering Sciences.

The student project contest is at its first edition and wishes to bring together students and master students to find the best innovative and applicative ideas in the field. Students and master students from the study programs Environment engineering and protection in agriculture, Land measurement and cadastre and Machines and equipment for agriculture and food industry are invited to participate in this competition.

The competition will take place in three sections, having the following topics:

- **Renewable energy sources;**
- **3D Campus map;**
- **Innovation in the field of machinery and precision farming.**

Working groups may include up to 4 students, coordinated by a teacher, group/section.

The project will be presented in English and it can be:

- A power point presentation with a maximum of 20 slides containing: topicality of the issue, theoretical and practical documentation, innovative ideas, practical implementation, and application impact;
- A layout or simulation model;
- A smartphone application;
- A movie made by the team;
- A practical demonstration.

Prizes will be awarded for each field: Environment engineering and protection in agriculture, Land measurement and cadastre and Machines and equipment for agriculture and food industry. Innovative projects which emphasize the possibility of technology transfer will be awarded.

There is no registration fee; accommodation and meals are provided.

Deadline registration: 12.10.2018 on agriculture.usamybt@yahoo.com
