

Appendix 9 - Study programs at master level (per university and faculty)

1. Evolution of the Master study programs number, per year

2. Full-time Master degree study programs, for the academic year 2011/2012

FACULTY	STUDY PROGRAM	PROGRAM CHARACTERISTICS	The year of MECTS approval
FACULTY OF AGRICULTURE	Ecological Agriculture	<u>Studies duration:</u> 2 years <u>Postgraduate qualification:</u> Master Diploma	2008
	Environment and natural resources management		1996
	Sustainable use of agricultural land		1996
	Biology of applied in agriculture		2001
	Feed production systems		2009
	Sustainable technologies for field crops		2008
FACULTY OF HORTICULTURE	Technologies in ecobiological horticultural systems	<u>Studies duration:</u> 2 years <u>Postgraduate qualification:</u> Master Diploma	2008
	Landscape design and layout techniques		2009
	Quality of products and by-products in wine		2009
	Contamination monitoring of plant origin products		2009
	Safety and quality of horticultural primary products		2009
	Genetic manipulation of plants		2009
	Improvement and seed production in grown plants		2009
	Forest ecosystems diversity		2011
FACULTY OF ANIMAL SCIENCE AND BIOTECHNOLOGIES	Nutrition and fodder base	<u>Studies duration:</u> 2 years <u>Postgraduate qualification:</u> Master Diploma	2009
	Design and technical-economic evaluation of animal production		2009
	Management of aquaculture production		2009
	Assisted reproduction in animals		2009

FACULTY OF VETERINARY MEDICINE ¹	Veterinary Medicine	<u>Studies duration:</u> 2 years <u>Postgraduate qualification:</u> Master Diploma	2001
FACULTY OF AGRICULTURAL MANAGEMENT	Management of Sustainable Rural Development	<u>Studies duration:</u> 2 years <u>Postgraduate qualification:</u> Master Diploma	2008
	Agricultural Business Administration		
	Agribusiness		
	Catering and Agri-tourism Management		
FACULTY OF FOOD PROCESSING TECHNOLOGY	Processing Systems Natural bioactive principles	<u>Studies duration:</u> 2 years <u>Postgraduate qualification:</u> Master Diploma	2008
	Advanced Technology for Processing Agricultural Raw Materials		2008
	Safety and Bio-security of alimentary products		2008
	Functional foods Engineering		2008

¹ For the veterinary medicine master study programs where the first two academic cycles are merged within a six years study program the graduating diploma granted is equivalent to a master diploma. Accordingly in 2010 it was organized the last admission exam for the veterinary medicine master program. As a consequence the data bellow are referring to the master study programs that were active until 2010 plus the last two years needed for the study programs closure.
